*****SOLID WASTE SERVICES UPDATE*****

SOLID WASTE SERVICES IMPACTED BY SNOW, COLD TEMPERATURES

*Alternative schedule in place for remainder of week;
Town urges patience and understanding in face of weather conditions*

SPEEDWAY, In— The Town of Speedway will implement an alternative schedule for solid waste services this week as a result of the winter storm moving through the area.

While every effort will be made to provide service as soon as possible, the priority is the safety of workers, so the schedule below is **CONTINGENT** upon safe access and cooperating weather conditions. The goal is to have all collections completed by Saturday, January 11 and a full return to normal service next week.

We apologize for any inconvenience our residents may experience due to the schedule changes and service disruption, but urge patience and understanding as the Town, its employees and service providers, Ray's Trash and Republic Recycling, work to provide service under extraordinary circumstances and conditions.

****Christmas Tree Collection -- CANCELLED FOR THE WEEK OF JANUARY 6**

This service has been suspended to allow Town of Speedway employees to focus on weather recovery. Service will resume the week of January 13. If your tree is already out, please leave it out and it will be picked-up when service resumes. Tree collection will resume on Monday, January 13.

Tuesday, January 7 (Zone 1)

Both Recycling and Residential Service will be moved to **Friday, January 10.**

Wednesday, January 8 (Zone 2) and

Thursday, January 9 (Zone 3)

Both Recycling and Residential Services are scheduled on the normal day, depending upon access and weather conditions.
