

SPEEDWAY WATER WORKS
FIRE HYDRANT FLUSHING
(PWS5249008)

FIRE HYDRANT FLUSHING WILL BE CONDUCTED BY WATER WORKS PERSONNEL STARTING OCTOBER 8 – THROUGH - OCTOBER 20, 2018.

FLUSHING WILL OCCUR DURING THE HOURS OF 8:00 PM AND 1:00 AM

CREWS WILL START FLUSHING ALONG 10TH STREET AND WILL WORK THEIR WAY NORTH THROUGH TOWN

Water Works annually flushes the distribution system as part of the distribution and hydrant maintenance program. Flushing the system improves water quality by removing sediments that may settle in the mains over time.

Although hydrants are flushed until water runs clear, there may be discolored or cloudy water at your tap for a short period of time. Allowing your faucet to run for a few minutes should clear up any cloudiness. After crews have been in your area, please check your water before doing laundry to avoid iron stains.

We thank you for your cooperation during this maintenance period. We apologize for any inconvenience this may cause.
